

# JCR domain change requirement

## 1.If You Own a Wix Domain (Registered via Wix)

- Go to Wix Dashboard → Settings → Domains.
- Select the domain you want to change.
- Click Connect a Different Domain or Transfer Away (if moving to another provider).
- Purchase a new domain or use an existing one.

## 2. If You Own a Domain from Another Provider

- If your domain is with another registrar (e.g., GoDaddy, Namecheap):
  - Pointing Method: Update the A Record and CNAME in your domain registrar's settings to point to Wix.
  - Transfer Method: Transfer the domain to Wix for easier management.

## 3. Changing the Site's Primary Domain

- If you have multiple domains connected to Wix:
  - Go to Wix Dashboard → Domains.
  - Set the new domain as Primary.
